Carrier

NXG-1801-5
Secure NXG Card, 5-PACK

Product overview

The ISO card in white color offers a robust solution for a secure environment where card data is protected with Mifare DESFire EV2 smart card technology. The card is compatible with the xGenConnect security system.

The card can be linked to a user either locally via the mifare keypad NXG-1832/33-EUR or remotely via the panel web pages. The user card replaces a traditional PIN code and allows the user to fully control the xGenConnect security system as well as perform automated functions.

Details

- Standard ISO card model
- Compatible with xGenConnect
- Mifare DESFire EV2 technology
- Card data secured by AES encryption
- Printed 8-digit serial card number
- 5-pack

NXG-1801-5
Secure NXG Card, 5-PACK
