

HPW3-1UL-HXX

Rackmount

SECURE

LOGIQ

The Secure Logiq H-Series rack workstation range has been designed to provide a standalone all-in-one server and client solution for the small to medium sized IP CCTV installation. With a compact rack mountable form factor, 300 Mbps throughput and up to 40TB of on-board storage the HPW3-1UL-H range are quality products for the budget conscious installation offering serious competition to the appliance or NVR market.
